Updated: #####

**Abstract:**

Trace amounts of brodifacoum and bromadiolone were detected in a liver sample of a red fox from Glenn, County, CA during 2011. The liver sample was collected from the red fox as part of a long term genetics and population study. The cause of death for the red fox was not reported (D1105211-01 N-03411/S10-07930).

With the present submission it would be important to have postmortem evidence of a coagulopathy for a diagnosis of anticoagulant rodenticide intoxication. In the absence of a coagulopathy, the detected concentrations are consistent with exposure (not intoxication).

## ***Part B: Pesticide Information***

---

**I024154-014**

**County:** Glenn

**State:** CA

**Date:**

---

**Pesticide:** Brodifacoum (112701)

**Type:** R

**Use Site:** N/R

**Product:** N/R

**Appl. Method:** N/R

**Appl. Rate:** N/R

**Formulation:** N/R

**Air/Ground:** N/R

**Legality:** Undetermined

**Certainty:** Exposure Only

In the absence of a coagulopathy, the detected concentrations are consistent with exposure (not intoxication).
